

- KING KONG - MONSTER PACK

The King Kong Monster Pack is compatible with the King of Tokyo and King of New York base games, as well as their expansions.

The King Kong Monster Pack adds new elements to the game: Tokyo Tower for *King of Tokyo* and the Empire State Building for *King of New York*! When you decide to play with one of these two towers, you will need to assemble them. Place each level near the game board; they are each different but work in the same way.

- **When a Monster claims a level**, he always starts on the bottom level. If he already controls the bottom level, he claims the next level. And if he already controls the bottom two levels **and claims the top level, he automatically wins the game.**

- If another Monster controls the level you are claiming, you seize control. If you control the bottom two levels and another Monster claims the bottom level, **you keep the middle level.**

- **Monsters who control one or more levels** gain the bonuses at the beginning of their turn: 1♥ for the bottom level, 1♥ and 1⚡ for the middle level (the bonuses are cumulative).

TOKYO TOWER

To claim a level of Tokyo Tower, a Monster must be in Tokyo and roll at least **1 1 1 1**. He claims the level and applies the normal dice effects.

THE EMPIRE STATE BUILDING

To claim a level of the Empire State Building, a Monster must be in *Manhattan* and roll at least **🌿 🌿 🌿 🌿**. He claims the level and applies the normal dice effects.

EVOLUTION CARDS

The Evolution cards let you play *King of Tokyo* and *King of New York* with supercharged Monsters! King Kong's Evolutions work like the Evolutions in *King of Tokyo: Power Up!* and *King of New York: Power Up!*

To play with King Kong's Evolutions, you need the *Power Up!* expansion for whichever base game you have.

BEAUTY CARD

One of King Kong's Evolutions introduces the *Beauty* card, which has two sides that have different effects according to which Monster owns the card. Place the card aside until the Evolution card *It Was Beauty Killed the Beast* is played. If the Monster with the *Beauty* card is eliminated, return the card to King Kong, **KING KONG** side up. If King Kong is eliminated, the *Beauty* card is removed from the game.
