CONTENTS

8 Action cards (2 Moves, 1 Punch, 2 Robberies, 2 Charms, 1 Theft), 7 Jewel tokens.

This mini-expansion can be used with the base game Colt Express only (not with another expansion). Belle is played by the game, not by a player. Thus Belle may win the game.

SET-UP

Set up the game as usual and place Belle to the **First player's right**. Then replace Belle's Action deck with the enclosed Action deck. Give her a Jewel instead of a Purse worth \$250. Place one Jewel token, in each Wagon, in addition to the usual Loot. The remaining Jewels are put back into the box.

SCHEMIN' PHASE At Belle's turns, draw randomly the first card of her Action deck and play it to the common deck.

ACTIONS All the base game rules apply except what follows.

Belle's **Move** always turns towards the part of the train where there are the most Jewels on the ground, to the front in case of a tie.

Belle's **Punch** hits **all the possible targets** on her location and moves them backwards the train if possible.

Belle's **Theft** makes her take **one Jewel from every Bandit on her location**.

Belle's **Charm** makes move **all the Bandits towards her location** ; if they are in the same Wagon, on a different Floor, they must change of floor. If they are in a Wagon other than the one where Belle is, they must come closer to Belle, without changing floor.

In a **Robbery** or a **Punch**, Belle takes or makes fall the loot in the following order :

BULLETS GIVEN TO BELLE

When Belle gets a Bullet card, it is placed in front of her Character card; it does not go into her Action deck. If there are **3 Bullet cards** or more in front of Belle when she is about to perform an Action, ignore that Action card then discard the three Bullet cards.

BELLE AND THE MARSHAL Belle can stay in the Wagon where the Marshal is. She does not get a Neutral Bullet nor flee to the roof when she meets him. She is able to Punch the Marshal.

Belle is affected by the Events in the same way all the other Bandits are.

END OF THE GAME Belle does not run for the title of Gunslinger. Belle wins if she is the richest Bandit.

CHEYENNE

Cheyenne has traded her gun for a bow. Beware, she's a better shot with her arrows, especially as they are poisoned...

CONTENTS 8 Action cards (4 Special Moves, 1 Floor Change, 2 Robberies, 1 Bow), 6 Poisoned Arrow cards, 6 Antidote numbered tokens.

This mini-expansion can be used with the base game Colt Express only (not with another expansion). Cheyenne is played by the game, not by a player. Thus Cheyenne may win the game.

SET-UP Set up the game as usual and place Cheyenne to the First player's right. Then replace Cheyenne's Action deck with the enclosed Action deck. Give her a Purse worth \$250. Replace her Bullet cards with the Poisoned Arrow cards. Place one Antidote token, in the corresponding numbered Wagon, the Caboose being numbered 1.

SCHEMIN' PHASE At Cheyenne's turns, draw randomly the first card of her Action deck and play it to the common deck.

ACTIONS All the base game rules apply except what follows.

The **Special move** action is triggered in the order of the icons, from left to right.

 During a **Robbery**, Cheyenne takes the loot in the following order :

      Cheyenne moves by **2 Wagons if she is inside the train, or 4 Wagons if she is on the roof**, towards the part of the train where there are the most Bandits, to the front in case of a tie. She is allowed to go through the Marshal position with no effect (except if she stays there). Then, after the move, she takes blindly **one Purse to each Bandit** who is on her location, Belle included.

 Cheyenne moves by **one Wagon if she is inside the train, or 2 Wagons if she is on the roof**, towards the part of the train where there are the most Bandits. In case of a tie, Cheyenne moves forwards. Then, if she is on the roof, she goes down. Lastly, after the move, she takes blindly **one Purse to each Bandit** who is on her location, Belle included.

 Cheyenne's **Bow** hits **all the possible targets, included Belle**. Each targetted Bandit gets a **Poisoned Arrow** to be added to his Action deck.

An Arrow card works the same as a Bullet card. If Cheyenne does not have enough Arrows to hit all the targets, she does not shoot.

BULLETS GIVEN TO CHEYENNE

When Cheyenne gets a Bullet card, it is placed in front of her Character card; it does not go into her Action deck. If there are **3 Bullet cards** or more in front of Cheyenne when she is about to perform an Action, ignore that Action card then discard the three Bullet cards.

Cheyenne is affected by the Events in the same way all the other Bandits are.

ANTIDOTE The players get an **Antidote** by playing a **Robbery** in a Wagon where an Antidote token is. With a **Punch**, you can make an opponent lose his Antidote. At the end of each Round, any player may use one or several Antidote tokens they have to get rid of as many Poisoned Arrows from his Action deck. The Arrows are given back to Cheyenne who will be able to use them again. The Antidotes are placed back into their starting Wagon.

END OF THE GAME If a player has **one or more Poisoned Arrows in his deck at the end of the game, they cannot win**, even if they are the richest Bandit. Cheyenne does not run for the title of Gunslinger. Cheyenne wins if she is the richest Bandit among the non-poisoned ones.

DJANGO

Django has a thing with dynamite. So don't get too close to him...

CONTENTS

8 Action cards (2 Moves, 1 Floor Change, 2 Fires, 2 Punches, 1 Explosion), 5 Dynamite tokens, 12 Ejection tokens worth \$500.

This mini-expansion can be used with the base game Colt Express only (not with another expansion). Django is played by the game, not by a player. Thus Django may win the game.

SET-UP

Set up the game as usual and place Django to the First player's right. Then replace Django's Action deck with the enclosed Action deck. Do not give Django the usual starting Purse. Place his pawn in the last but two Wagon. Give each player two Ejection tokens. The remaining tokens are put back into the box. Place the Dynamite tokens within reach.

At the beginning of each Round, place one Dynamite in the Wagon where Django stands, if there is not one yet.

SCHEMIN' PHASE At Django's turns, draw randomly the first card of his Action deck and play it to the common deck.

ACTIONS All the base game rules apply except what follows.

Django's **Fire** and **Punch** hit all the possible targets, included Belle. Django may give several Bullet cards in one Fire action and make all the targets move backwards. Thus the targetted Bandits may be ejected out of the train if they were in the Caboose or in the Locomotive. If Django succeeds in emptying his Colt, then he uses Neutral Bullets when he shoots.

Django **Moves** by 1 Wagon inside the train and 2 Wagons on the roof, towards the part of the train where there are the most Bandits, to the front if there is a tie.

Django's **Punch** moves his targets backwards the train and makes them loose their loot in the following order:

The **Explosion** action triggers all the Dynamites in the train. All the Bandits (except Django) who are inside and on the roof of the exploding Wagon are ejected from the train. The Marshal is not affected by the Dynamite. The Loot tokens which are inside an exploding Wagon are moved on this Wagon's roof, and vice versa.

EJECTION Each ejected Bandit, because of an explosion or any Django's action, gives an Ejection token to Django, if they have any. Then the ejected Bandits' pawns are place next to the Wagon from where they have been ejected. They will use their next Action to get on the train, inside this Wagon. This Action will be lost.

The Ejection tokens cannot be lost by a Bandit, otherwise than he has been ejected.

BULLETS GIVEN TO DJANGO

When Django gets a Bullet card, it is placed in front of his Character card; it does not go into his Action deck. If there are 3 Bullet cards or more in front of Django when he is about to perform an Action, ignore that Action card then discard the three Bullet cards.

Django is affected by the Events in the same way all the other Bandits are.

END OF THE GAME If Django gets all the Ejection tokens, he wins the game immediately. If not, Django may win if he is the richest Bandit. Django does not run for the title of Gunslinger. The Ejection tokens are part of the Loot.
