EXPERT VERSION

FOR THE ONES WHO HAVE BEEN PRACTICING!

Make the following adjustments (the other rules remain the same):

- At the ❹ point in a round:
  - Before naming a player, the CAP'TEN has to say the exact value of the card to be turned over. For every mistake they make, a token moves to the **poop zone** on the mat.
  - In addition, the CAP'TEN **does not reveal their own card.**

  Notes : - ascending order no longer matters
  - the CAP'TEN can say the same number more than once.

- When all the other players' **Number** cards have been revealed on the mat, the players have to agree on the number on the CAP'TEN's card.
 - → If they say the correct number, a token from the **poop zone** returns to the **unicorn zone**.
  - → If it is incorrect, they do not lose an extra token.
  Then a new round begins.

At your own risk!

Example :
The 1st round is almost over: the CAP'TEN has found the exact number of 3 of his 4 teammates. Now, if his teammates guess the value on his card correctly, the lost token is returned. If they get it wrong, nothing happen.

RULES FOR 4 TO 8 PLAYERS

TOP TEN is a cooperative game: all the players are on the same team.

- Take 5 random **Theme** cards and make a pile on the table.
- Put as many tokens as there are players in the **unicorn zone** of the mat.
- The funniest player is the CAP'TEN or the 1st round (it will be the player to his left for the 2nd round, etc).

And we're off! A game consists of 5 rounds.

A round:

❶ The CAP'TEN takes the 1st **Theme** card and reads one of the 2 themes aloud.
❷ Deal a **Number** card to each player face down. They look at their own card without letting the other players see.
❸ The CAP'TEN and then the other players in any order, invent and say a response corresponding to their secret number.

THE INTENSITY OF THE ANSWER DEPENDS ON THE NUMBER FROM 1 (IN GREEN) TO 10 (IN RED).

❹ Then, the CAP'TEN must guess the ORDER of the answers, from the lowest to the highest number:
  - → he names a player,
  - → this player puts his **Number** card face up on the mat,
  - → the same goes for each player's card (including his own).

⚠ if a card is lower than the previous one: move a token from the **unicorn zone** to the **poop zone**. And the round continues.

- If at any time all the tokens are in the **poop zone** : **the game is over!**
- If any tokens are left in the **unicorn zone** at the end of the 5th round: **you win!**

**HAVE FUN!**

EXAMPLE WITH 5 PLAYERS

Each player invents and states a response, according to their **secret** number from 1 (the least scary) to 10 (really scary) :

THERE IS A HIDDEN CAMERA IN THE ROOM WHERE YOU ARE PLAYING. WHAT DID IT RECORD LAST...

FIND A DOG'S NAME, FROM A BORING ONE TO ONE THAT'S REALLY SCARY.

Little Bo Peep `1`

Lassie `4`

Godzilla `9`

Tweety Pie `3`

Freddy Krueger `10`

The CAP'TEN tries to put the answers in the correct order:
- « *Lassie* ». The player who gave this answer puts their **4** card face up on the mat.
- « *LIttle Bo Peep* ». The **1** card is put on top. This is incorrect, a token moves to the **poop zone**.
- « *Tweety Pie* ». The **3** card is put on top (3 is higher than 1, so all good).
- And so on, with «Godzilla» (**9**) then «Freddy Krueger» (**10**).
At the end of the round a token is in the **poop zone**.

RULES WITH 9 PLAYERS

- Start with 8 tokens in the **unicorn zone** : there will only be 8 responses per round.
- The CAP'TEN does not have a number and does not make up an answer. He just guesses the order of the other players' responses.

TO NOTE

- The remaining **Number** cards stay face down.
- You ONLY move a token to the **poop zone** if the PREVIOUS card is higher: *Card 4 is turned over, then card 2 → a token moves to the **poop zone**. But if you then turn over the 3 card, it is fine, because 3 is higher than 2*.

The responses:
- The goal is to answer (words, gestures...) relating to the Theme. You are not allowed to say the number of your card, even indirectly. *For example, with the number 3, you cannot say "it is 3 degrees" or "like the little pigs"*.
- You can repeat the response but you cannot change it.

New round :
- Take back all the **Number** cards: the ones on the mat and the ones which were not used.
- Do not touch the tokens.
