GAME RULES

Before you start: Pay attention to the orientation of the game board, so that the holes are in the positions shown in the challenge.

- 1 Place the puzzle pieces with squirrels on the game board as indicated:
 - Easy challenges use only 2 or 3 squirrels.
More advanced challenges will use 4 or 5 squirrels.
 - Place an acorn in front of every squirrel. Normal acorns are indicated in brown. The special "rotten" acorn (only included in this XXL version) is indicated by a 'crossed-out' symbol in the challenge.

normal acorn

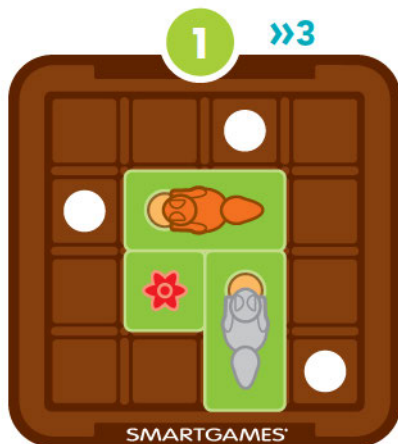

rotten acorn

- Some challenges will also feature the square puzzle piece with the red flower. This is a stationary obstacle and cannot be moved.
- 2 Slide the squirrels horizontally and vertically around the gameboard:
 - The feet underneath the puzzle pieces should always stay inside the grooves of the gameboard.
 - The puzzle piece with the red flower cannot be moved and will always cover one of the holes.
 - Every hole can only contain 1 acorn. Once a hole is filled, other squirrels can pass over this hole safely without losing their acorn.
 - In the extra challenges the rotten acorn must always stay in front a squirrel. It's NEVER allowed to drop the "rotten" acorn in any hole.
 - TIP: plan your strategy! Avoid dropping your acorns too early in the wrong hole! Some holes can only be filled by squirrels in a specific orientation.
 - If you need to redo a move (or re-start a challenge), just lift up the game board to pick up the acorns that were already dropped in holes.

- 3 The shortest solution is offered at the end of the challenge booklet.

**WARNING: CHOKING HAZARD - Toy contains small parts and a marble.
Not for children under 3 years.**
